[By Associated Press Leased Wire.] Mattoon, Ill., May 28 .- American sympathy manifested itself in a substantial fashion today for the plight time of the tornade which swept centrai Illinois Saturday leaving behilld it death and ruins.

Ecores of communities thruout Illinois, Indiana and neighboring states responded to the appeals of the stricken cities with cars of foodstuffs, blankets and cots and assurances were received that more was available if necessary.

Organized relief for the destitute of whom there are about 3,000 in the two towns was begun today under the supervision of J. J. O'Connor of the Chicago chapter of the American Red Cross, who arrived with a contingent of 15 nurses.

Today food stations were excess lished and owners of motor cars were pressed into service delivering to public buildings, institutions and oriwate homes serving as temporary shelters for the stricken.

Coles County Worst Hit, So far as was known today the wind cost 91 lices and resulted in injuries to about 600 persons in Coles county. Reports from the farming districts indicated that the casualties were heavier in the two cities. The farmers, however, reported heavy property losses in the destruction of huildings, the death of stock and damage to growing crops. Available estimates placed the damage in the county at between \$2,500,000 and \$3 .-600,000 of which \$1,250,000 was in Mattoon and about \$750,000 in Charles-

While immediate food needs Charleston and Mattoon were prowided for, relief officials made it plain that the necessity for aid still was vital. After using EATONIC for a week you will be EATONIC is indeed healthful for anyone's stomagreeably surprised to learn that your stomach is the best stomach in the world. The reason it has been causing you trouble is because you have allowed it to accumulate too much acid. Excess acid acts as a poison. It irritates the delicate membranous lining of the stomach. It retards digestion. The partially digested food is hastened into the intestinal tract where it lays like a lump of lead and sours and ferments. Now if you could reach down into your stom-

sch with a sponge or a piece of blotting paper, suck up those excess acids and poisoneus juices and literally lift them out, all your stomach mis-ery would be gone. That is just what EATONIO does. It acts like a sponge in your stomach. It is a pleasant tasting compressed compound, which you eat like candy. As you eat it, thousands of spongy-like particles enter the stomach and blot up the excess acids and poisonous fluids, sucks them up like a sponge, takes them out through the intestines and Nature does the rest. And

# Starting a Telephone Talk

THEN you have called for a number on V the telephone and you hear a voice say, "This is So and So, Mr. Such and Such speaking," you know at once whether you have the right number or not.

On the contrary, if the voice says "Hello! Hello!" you are in the dark, and you are obliged to waste time in ascertaining the identity of the person calling.

When called to the telephone always introduce your-self at once. It saves all preliminary questioning, and avoids confusion.
